

**Codebook for** Attitudes Toward Artificial Intelligence (AI) and Globalization: Common Microfoundations and Political Implications by Beatrice Magistro, Sophie Borwein, R. Michael Alvarez, Bart Bonikowski, and Peter Loewen.

**Data file:** clean\_AJPS.csv

**Variable list:**

#country (numeric)

1 US

2 Canada

#ID (numeric) individual respondent id

#countr (factor)

US

Canada

#age\_group (age group, factor)

18 to 29

30 to 44

45 to 64

65 or older

#gender\_bin (binary variable for gender, factor)

Woman

Man

NA (if not Woman or Man)

#education (factor)

HS or less

Some college

College grad

Postgrad

#manipulation\_check2 (whether they passed or failed a manipulation check, factor)

Fail

Pass

#party (includes both Canadian and US parties, factor)

Democratic

Republican

CPC

NDP  
LPC  
Other

#party2 (includes both Canadian and US parties. Here leaners are included in the Democratic and Republican parties respectively, factor)

Democratic  
Republican  
CPC  
NDP  
LPC  
Other

#education\_bin (education binary, factor)

College  
No college

#policy\_ai\_offshoregr\_1 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Expand social spending, such as unemployment benefits, to support workers facing potential job loss*

1 strongly disagree  
2 disagree  
3 neither agree nor disagree  
4 agree  
5 strongly agree

#policy\_ai\_offshoregr\_2 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Implement a basic income that covers essential living costs for everyone, regardless of their financial situation*

1 strongly disagree  
2 disagree  
3 neither agree nor disagree  
4 agree  
5 strongly agree

#policy\_ai\_offshoregr\_3 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Fund programs to re-skill workers for new jobs

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#policy\_ai\_offshoregr\_4 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Reduce the number of immigrants entering your country for work

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#policy\_ai\_offshoregr\_5 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Restrict international competition by increasing trade barriers on goods and services to your country

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#policy\_ai\_offshoregr\_6 (pre-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Regulate the use of [generative AI/offshoring]

- 1 strongly disagree
- 2 disagree

- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_1 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Expand social spending, such as unemployment benefits, to support workers facing potential job loss*

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_2 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Implement a basic income that covers essential living costs for everyone, regardless of their financial situation*

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_3 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Fund programs to re-skill workers for new jobs*

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_4 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Reduce the number of immigrants entering your country for work

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_5 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Restrict international competition by increasing trade barriers on goods and services to your country

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#tables\_policygr\_6 (post-treatment, numerical)

*Implementation of Policy - Generative AI or Offshoring* Think of the following scenario: Your government is crafting a policy plan to help with the challenges of [AI and automation/trade]. Do you agree that the government should implement the following policy: Regulate the use of [generative AI/offshoring]

- 1 strongly disagree
- 2 disagree
- 3 neither agree nor disagree
- 4 agree
- 5 strongly agree

#treat\_offshoring (treatment variable, factor)

AI

Offshoring

#qtable\_1 (after each conjoint table, numerical)

*Do you support or oppose the company's decision to [adopt new generative AI tools/offshore some of its activities abroad]?*

- 1 strongly oppose
- 2 oppose
- 3 neither
- 4 support
- 5 strongly support

#qtable\_2 (after each conjoint table, numerical)

*Do you support or oppose the company's decision to [adopt new generative AI tools/offshore some of its activities abroad]?*

- 1 strongly oppose
- 2 oppose
- 3 neither
- 4 support
- 5 strongly support

#qtable\_3 (after each conjoint table, numerical)

*Do you support or oppose the company's decision to [adopt new generative AI tools/offshore some of its activities abroad]?*

- 1 strongly oppose
- 2 oppose
- 3 neither
- 4 support
- 5 strongly support

#qtable\_4 (after each conjoint table, numerical)

*Do you support or oppose the company's decision to [adopt new generative AI tools/offshore some of its activities abroad]?*

- 1 strongly oppose
- 2 oppose
- 3 neither
- 4 support
- 5 strongly support

#price\_after\_1 (conjoint attribute values for price, factor)

Decreases to 300\$  
Decreases to 450\$

Unchanged at 600\$
